Report on the Extension Activity

(PC Recruitment Coaching)

(on behalf of the Department of English, STSN Govt. Degree College, Kadiri)

1. Introduction:

Extension activity forms an obligation and part of curriculum of any subject and any activity under this category will fetch good grade and laurels to the college. Hence, taking the opportunity of the recently advertised “Police Recruitment of Andhra Pradesh”, the Department of English conducted an extension activity in the form of extending free coaching to the aspirants studying in the college and that of the town with the concept of “Giving Back”.

2. Target Group:

The target group for the conducted coaching classes was primarily the students who are studying in the college who belong to I, II & III year of B.Sc., B.Com. & B.A. groups and next to them are the aspirants who expressed their willing to attend the coaching classes who do not belong to the college who have completed their Intermediate and Graduation and the alumni of the college.

3. Circular (to the staff and the students of the college – please see Annexure - 1):

A circular has been circulated among the aforesaid target group to inform both the lecturers and the target group who hail from the college and the others via circulars in the college and in the print and social media. The circulated circulars can be found at the Annexure – I.

4. Plan of Action implemented:

As planned earlier the imparting of the coaching started on 14th Dec., 2022 at 4-00 PM in the Virtual Class Room of the college on behalf of the Department of English of the college. The images related to the inaugural session are as follows:

5. *Details of the Admission of the Students:*

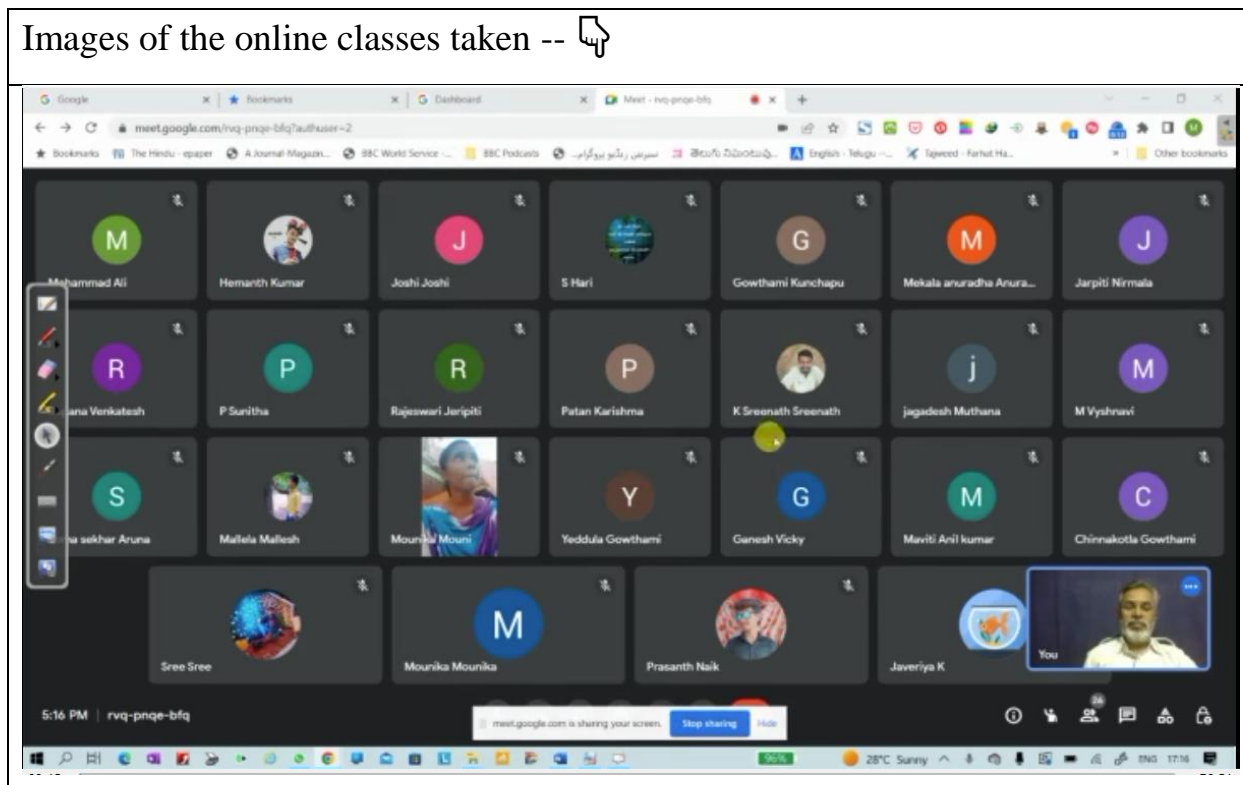

The students who came forward to join the Free Coaching classes were forwarded a link to fill the admission form specifying their personal and academic details. After their submission of the same, it reaches the Co-ordinator and it is filed electronically. An instance of one of the same is annexed at Annexure -2. The details of the students are as follows:

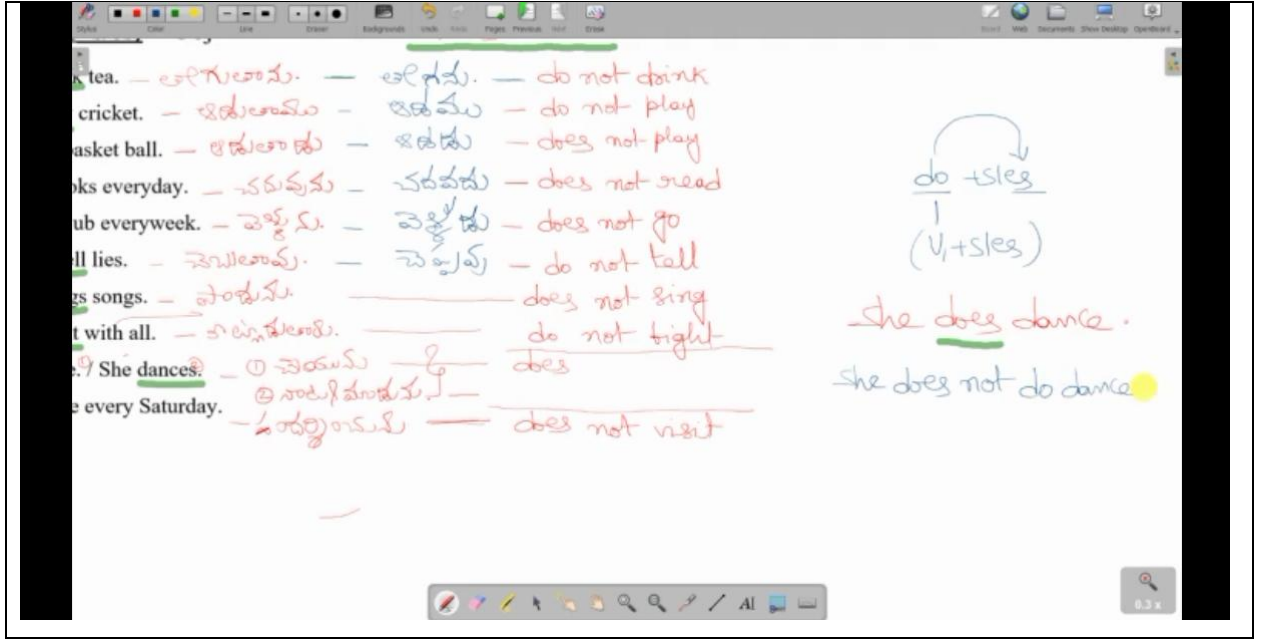

https://stsnngdckadiri.ac.in/userfiles/1_STSN%20PC%20Coaching%20-%20Students'%20Data%20Sheet.pdf

6. *Time-Table:*

The classes were conducted as planned and attendance was marked for the students attended to the class (an example of the marked attendance could be seen at Annexure – 3). The classes were held from 4-00 PM to 5-00 PM every day except the Sankranthi vacation to the college. Even during the Sankranthi vacation, online classes were taken not to water down the spirit of the aspirants of the coaching classes. Attendance to the online class was satisfactory. Attendance details of one of such classes is jotted down for your perusal.

7. Mode of Teaching and Assessment:

The attendees were taught on a topic an assessment test was conducted via online. The advantage found in this method was that it enabled the aspirant to know the evaluation his/her calibre in that particular topic at once and the automated evaluated answer sheet with explanations to the answers appears to him at once the aspirant submits all the answers of the test. A such evaluated answer sheet is annexed at Annexure – 4.

A “Whatsapp” group by name “PC Coaching_2022-STSN GDC” has been created to interact and forward them the required notes as the department lacks any printer for providing the printed material. The same platform has been utilised to post the link of the online tests. It comprises 170 participants. The image specifying the details follows:

8. Outcome:

The aspirants got acquainted themselves with the nitty-gritty of the competitive examinations and the way in which they have to equip themselves to compete in such examinations. Being many of the aspirants are from the rural background and the first-generation learners, they realised that they need a continuous guidance of some reasonable duration to come out with flying colours in any of the prospective competitive examinations. A chunk of trained students will get selected for the next tier of recruitment test i.e., the Mains Examination of the recruitment process. The result is that enlightenment dawned on the majority of the attendees and some of them asked for the continuation of the coaching in view of the spree of awaited notifications from the state government (more than 14000 posts from the government of AP in the month of Feb., 2023 for the Grama Sachivalayams) and the central government as the job-calendar (annexed at Annexure – 5) has been declared and the SSC MTS notification for a whopping 11409 posts has been released for which the qualification is 10th Class / SSC. Some of the students who attended the classes gave their request to continue the coaching. The details of such request are provided hereunder for your perusal:

9. **Proposal:**

Taking a cue from the experience of the coaching conducted and respecting the interest of the students who requested for the continuation of coaching whose details are mentioned above and in the Annexure – 6 , I hereby request you to accord permission for the continuation of the coaching on behalf of the Department of English by providing internet connection and a printer to the department as the department is with a vision to make this phase of coaching more effective and planning to provide daily work-sheets in the class after the imparting of the concerned topic apart from the online test periodically. In this regard, it is further submitted that the department plans to conduct an eligibility test for the aspirants who wish to attend the planned coaching to be given for the ensuing SSC-MTS (for which the minimum qualification is SSC). The advantage for this time in respect with the SSC MTS is that it is allowed to be written in Telugu Medium also which was restricted to only either to English or Hindi medium. In this regard, it is submitted that the department possesses abundant material in the form of subjective and objective questions (multiple choice) with proper explanations culled from the NCERTs and the State Government Text Books (both in English and Telugu media) to a tune of more than 32,500 questions apart from time-tested work-sheets in the subjects of English, Science and Mathematics to a tune of 6 volumes in each mentioned subject (each volume containing more than 180 work sheets) right from elementary to advanced level.

Hence, it is requested on behalf of the Department of English that permission may please be accorded to continue the coaching in view of the advertised SSC-MTS and the ensuing Grama Sachivalayam Notification in the month of Feb., 2023 and that of the dates mentioned in the Job Calendar. Awaiting the accordance of your kind permission to continue the coaching by providing internet connection and printer facility or utilizing the xerox machine facility available in the college for providing the material to the aspirants in view of the evincing of interest by the students and in turn such activity on behalf of the department would enable the department to carry on some extension activities which may contribute positively for achieving good grade for the department and the college.

With a hope and thanking you in anticipation, madam.

Yours faithfully,

Lecturer In-charge

Phylum Arthropoda:- General characters and outline classification up to classes with examples; Type study: Macrobrachium rosenbergii (Scampi). Phylum Mollusca:- General characters and outline classification up to classes with examples; Pearl formation in Pelecypoda. Torsion in Gastropoda. Phylum exhinodermata: General characters and outline classification up to classes with examples; Water Vascular system of star fish. Invertebrates Larval Forms: Amphipoda, Ephyra, Trochophora, Nauplius, Zoea, Mysis, Megalopa, Glochidium, Bipinaria. Hemichordata: General characters and outline classification up to classes with examples; Balanoglossus: Structure, Affinities & Tornaria Larvae

ANIMAL DIVERSITY-CHORDATES

General Characters of Chordates and its origin. Protochordata: Salient Features. Structure and life history of Herdmania. Significance of Retrogressive metamorphosis. Structure and affinities of Amphioxus.

Cyclostomata: General characters of Cyclostomes. Difference between petromyzon and myxine

Fishes: General Characters of Fishes. Classification of fishes up to sub-class level with examples. Scoliodon-External features, Digestive system, Respiratory system, Heart, aortic arches, Brain. Migration in fishes. Types of scales. General account of dipnoi.

Amphibia: General characters of Amphibia. Classification of Amphibia up to orders with suitable examples. Rana hexadactyla-External features, Digestive system, Respiratory system, Heart, Arterial system and Brain. Parental care in Amphibia.

Reptalia: Skull in Reptiles.

Aves: General Characters of Aves. Classification of Aves up to sub-classes with examples. Columba livia-External features, Digestive System, Respiratory systems, Heart, Arterial system (Double Circulation) Brain. Migration of Birds. Flight adaptations in Birds. Brief account of Archaeopteryx.

Mammalia and Zoogeography: General Characters of mammalia. Classification of Mammalia up to sub classes with examples. Dentition in Mammals.

Zoogeography: Characteristics and fauna of Oriental region, Australian Region, Ethiopian Region.

CYTOLOGY, GENETICS AND EVOLUTION

Cytology: Definition, History, Prokaryotic and eukaryotic cells, virus, viroids. Mycoplasma. Electron microscopic structure of eukaryotic cell. Plasma Membrane-Different models of plasma membrane.

Cell Organelles: Structure and functions of Endoplasmic Reticulum. Structure and functions of Golgi apparatus. Structure and Functions of Lysosomes. Structure and functions of Ribosomes. Structure and functions of Mitochondria. Nucleus. Chromatin-Structure and Significance, Chromosomes-Structure, Types, Functions.

Genetics: Mendel's work on transmission of traits. Principles of inheritance. Incomplete dominance and co-dominance. Lethal alleles, Epistasis, Pleiotropy. Sex Determination. Sex Linked inheritance. Linkage and crossing over. Extra chromosomal inheritance. Human Karyo typing

Evolution: Origin of life. Lamarckism, Darwinism, Neo-Darwinism, Hardy-Weinberg Equilibrium. Variations, isolating mechanisms, natural selection. Types of natural selection (Directional, Stabilizing, disruptive). Artificial Selections and forces of evolution. Speciation (Allopatric and Sympatric). Macro evolutionary principles (Examples: Darwin's finches)

EMBRYOLOGY, PHYSIOLOGY, ECOLOGY, ANIMAL BEHAVIOUR

Embryology: Gametogenesis & Fertilization. Types of Eggs – Alecithal, Microlecithal, Meso lecithal, Mega lecithal & Centrolecithal. Development of Frog up to gastrulation. Formation of primary germ layers and their fate. Fetal membrane of chick. Placentation in mammals.

Physiology: Digestion: Definition, digestion of Carbohydrates, Proteins and Lipids. Absorption of digested food materials. Respiration: Pulmonary Ventilation & Transport of Respiratory Gases. Circulation: Human Heart – Structure & Function and Cardiac Cycle. Excretion: Structure of Human Kidney & Nephron and Urine Formation. Nerve Impulse: Nature, Origin and Propagation-Local circuit theory, Saltatory Conduction & Synaptic Transmission. Muscle Contraction: Ultra Structure of Skeletal Muscle Fiber & Sliding Filament Theory. Human Endocrine Glands & Their Hormones: Hypothalamus, Pituitary, Pineal, Thyroid, Parathyroid and Adrenal glands, Pancreas and gonads.

Ecology: Meaning & Scope of Ecology. Pond ecosystem – Biotic & Abiotic factors (Temperature, Light, Water), Food Chain & Energy Flow. Bio-geo chemical cycles of nitrogen, carbon and phosphorus. Animal Habitat & Niche and Ecological Succession. Community Interactions: Mutualism, Commensalism, Competition and Predation.

Animal Behavior: Animal Behavior: Definition & Types. Innate Behavior: Taxes & Reflexes-Reflex Arc Mechanism. Learned Behavior: Associate Learning (Eg. Classical Conditioning & Instrumental Learning). Learning & Memory. Biological Clocks & Circadian Rhythms.

ANIMAL BIOTECHNOLOGY

Restriction modification systems: Types I, II and III. Mode of action, nomenclature, applications of Type II restriction enzymes in genetic engineering

DNA modifying enzymes and their applications: DNA polymerases. Terminal deoxynucleotidyl transferase, kinases and phosphatases, and DNA ligases

Cloning Vectors: Plasmid vectors: pBR and pUC series, Bacteriophage lambda and M13 based vectors, Cosmids, BACs, YACs,

Techniques of Recombinant DNA technology

Gene delivery: Use of linkers and adaptors Microinjection, electroporation, biolistic method (gene gun), liposome and viral-mediated delivery. Basics of PCR. Sanger's method of DNA sequencing- traditional and automated sequencing. Southern, Northern and Western blotting, Preparation and uses.

Animal Cell Technology: Natural and Synthetic. Primary culture, secondary culture, continuous cell lines; Protocols for Primary Cell Culture; Established Cell lines (common examples such as MRC, HeLa, CHO, BHK, Vero); Cell fusion, Production of Monoclonal antibodies (mAb), Applications of mAb. Types of stem cells, applications

Manipulation of reproduction in animals: Artificial Insemination, *In vitro* fertilization, super ovulation, Embryo transfer, Embryo cloning.

Applied Biotechnology: Fermentation: Different types of Fermentation: Short notes on - Submerged & Solid state; batch, Fed batch & Continuous; Stirred tank, Air Lift, Fixed Bed and Fluidized; Downstream processing- Filtration, centrifugation, extraction, chromatography, spray drying and lyophilization

ANIMAL HUSBANDRY

General introduction to poultry farming. Principles of poultry housing. Poultry houses. Systems of poultry farming. Management of chicks, growers and layers. Management of Broilers.

Poultry feed management – Principles of feeding. Nutrient requirements for different stages of layers and broilers. Methods of feeding. Poultry diseases – viral, bacterial, fungal and parasitic (two each); symptoms, control and management.

Selection, care and handling of hatching eggs. Egg testing. Methods of hatching. Brooding and rearing. Sexing of chicks.

Breeds of Dairy Cattle and Buffaloes – Definition of breed; Classification of Indian Cattle breeds, exotic breeds and Indian buffalo breeds. Systems of inbreeding and crossbreeding. Housing of dairy animals – Selection of site for dairy farm; systems of housing – loose, housing system. Conventional dairy barn. Cleaning and sanitation of dairy farm. Weaning of calf. Castration and dehorning. De worming and Vaccination programme. Records to be maintained in a dairy farm.

Care and management of dairy animals - Care and management of calf, heifer, milk animal, dry and pregnant animal, bulls and bullocks.

IMMUNOLOGY

Over view of Immune system: Introduction to basic concepts in Immunology. Innate and adaptive immunity.

Cells and organs of Immune system: Cells of immune system. Organs of immune system. Basic properties of antigens. B and T cell epitopes, haptens and adjuvants. Factors influencing immunogenicity. Structure of antibody. Classes and functions of antibodies. Monoclonal antibodies. Structure and functions of major histo compatibility complexes. Exogenous and Endogenous pathways of antigen presentation and processing. Classification and brief description of various types of hyper sensitivities. General introduction to vaccines. Types of vaccines.

Registration Process:

Students interested in participating in the M.Sc entrance Zoology coaching program were required to register by submitting their details to the department office. The registration process involved filling out a form indicating personal information, educational background, and contact details. Upon completion of the registration process, students were provided with a schedule of classes and other relevant information regarding the program.

Procedural Steps:

The coaching program followed a structured approach, consisting of the following procedural steps:

- **Orientation:** A brief orientation session was conducted to familiarize participants with the objectives, syllabus, and schedule of the coaching program.
- **Classroom Sessions:** Daily classroom sessions were held, where resource persons delivered lectures and conducted interactive discussions on various topics covered in the syllabus.
- **Study Material:** Participants were provided with study material, including textbooks, reference books, and handouts, to supplement their learning.
- **Assignments and Assessments:** Regular assignments and assessments were given to evaluate the understanding and progress of participants.
- **Doubt Clearing Sessions:** Dedicated doubt clearing sessions were organized to address any queries or difficulties faced by participants in understanding the course material.

Outcomes:

The coaching program yielded several positive outcomes, including:

- Improved learning skills and understanding of key concepts in zoology.
- Enhanced performance in postgraduate entrance examinations.
- Increased confidence and motivation among participants to pursue higher education in zoology.
- Development of critical thinking and problem-solving abilities.
- Strengthened faculty-student relationships and collaboration within the department.

P.G Entrance Material

- ✓ 1. King of elements is ---Carbon
- ✓ 2. King of chemicals ---Sulphuric acid
- ✓ 3. King of liquids---Aquaregia
- ✓ 4. King of Solids---Diamond
5. ns^2np^6 configuration is called -- inert gas configuration(Octet Configuration)
6. $(n-1)s^2, p^5, d^{10}$ configuration is called --pseudo inert gas, configuration
7. Most electronegative-F, highest electron affinity-Cl, highest I.P-He, Least I.P-Cg
- ✓ 8. The lightest metal --Lithium (Li)
9. Lightest non-metal---Hydrogen (H), Lightest element-- Hydrogen (H)
10. Which is bigger among the ions Na^+ , F^- , O^{2-} & Mg^{2+} -- Ans: O^{2-}
11. In NH_4^+ , the hybridization of N---- Ans: SP^3
12. Among HF, H_2O , CCl_4 , salycilaldehyde which doesnot have hydrogen bonds-- Ans: CCl_4
13. Which has highest C-C bond length- 1) Ethylene 2)Acetylene 3)Ethane 4) Benzene. Ans: 3
14. ${}_{20}Ca^{40}$, ${}_{18}Ar^{40}$ are the examples of --Isobars
15. Molecules having odd no. of electrons will have ---- magnetism-Para
16. Which does not obey Octet rule- 1) CO_2 2) H_2O 3) O_2 4) CO Ans: 4
- ✓ 17. Formula of Bleaching powder--- $CaOCl_2$
18. Which is isoelectronic with CN^- 1) CO 2) O_2^+ 3) O_2^- 4) N^{3-} Ans: 1
19. The non-metal which is in liquid state at room temperature--Bromine(Br)
- ✓ 20. The noble gas which is present in electric bulb---Argon(Ar)
- ✓ 21. The metal which is in liquid state at room temperature-- Mercurv(Hg)
- ✓ 22. The metal with highest ductility and malleability is---Gold(Au)
- ✓ 23. Father of Co-ordination Chemistry---Alfred Werner
24. General electronic configuration of d block elements is--- $ns^{1-2} (n-1)d^{1-10}$
25. An element with atomic number 25 belongs to __ period & __ group Ans: 4, VIIB
26. Increasing order of radii among Fe, Fe^{2+} , Fe^{3+} --- Ans: $Fe > Fe^{2+} > Fe^{3+}$
27. Among Sc^{3+} , Zn^{2+} , Na^+ , Fe^{3+} coloured ion is --- Ans: Fe^{3+}
28. In Iron triads the other elements present along with iron are---, --- Ans: Co, Ni.
29. Elements having incompletely filled n, n-1, n-2 shells are--- Ans: f-block elements

Report of the Career Guidance Cell – 2020-21

The motto of operation of the Career Guidance Cell in the college is enumerated in the website of the college. The said information can be found at the following link -

<http://stsgndckadiri.ac.in/page.php?type=support&id=career>

The purpose of the operation of activities in the Career Guidance Cell can be found in the following images.

Despite the best and the noble aspirations of the custodians of the Career Guidance Cell and that of the institution, all the plans wrought by the Career Guidance Cell could not be fructified due to the sweeping effect of the unfortunate outbreak of Covid-19.

Due to the effect of pandemic Covid-19 the entire previous academic year 2020-21 passed in a topsy-turvy manner. Hence, the planned activities could not be carried on as planned. Even the impact of the unfortunate Covid-19 is evident in the implementation of the Job Calendar of the Central Government Recruiting Agencies also. Despite the unfortunate bottlenecks, the custodians of the Career Guidance Cell of the college could carry the guidance which is being provided to the students who used to attend the Career Guidance Cell in an impulsive manner as the attendance to the Cell is not a compulsion. It is carried in a successful manner utilising the ICT tools available in the Career Guidance Cell to reach the students. To realise this concept a Whatsapp group of students has been created and the material required to mould their career has been posted continuously. Following the golden words of the academic stalwarts that "*Newspaper is a window to the world*", daily national and vernacular news papers catering to the needs of the student community have been posted viz., *The Hindu, Eenadu, Andhra Prabha, Sakshi, Siasat, Munsif* and especially the daily student edition of "*Telangana Today*" which particularly caters to the level of the students for the all round development of their General Knowledge and awareness of the world.

All these postings and the competitive examinations material apart from their domain knowledge are felt imperative to mould the career of the students who wish to make their academic studies a basis for their future course of life and they have been reaching the student folk continuously who exist in the "STSN CGC" Whatsapp group since 31st May 2020 and evaluation is also

made intermittently through online tests on various topics related for the development of employability skills and competitive examinations. The details of the online tests posted in the Whatsapp group are provided hereunder along with the live links for your information and perusal.

The Career Guidance also conducted an awareness camp on the availability of opportunities to the aspirants via the government recruiting agencies especially Staff Selection Commission. The images are as follows and the entire programme can be viewed at the following link --

Awareness Programme being conducted on behalf of Career Guidance Cell

It is further submitted that vide following the SWOT format, it can be stated under “**Strengths**” that the Career Guidance Cell possesses more than 950 books related to various subjects apart from the NCERT books from class VI to XII to equip the student folk to prepare for the competitive examinations and inculcate employability skills. They are issued to the interested students with a time-bound return tenure after inculcating awareness among them about the future career opportunities.

Following the humane concept of “**Giving Back**” the custodians of the Career Guidance Cell subscribed to the “**Magzter**” with the help of which the student folk who attend the Career Guidance Cell can go through or read more than 4500 magazines and journals virtually utilizing the ICT infrastructure available in the Career Guidance Cell that are published nationally and internationally related to a plethora of subjects apart from the physical books available in the Cell. Following the same concept, the custodians of the Cell also subscribed to “**The Economist**”, recently, a unique internationally renowned magazine which is also entirely provided in an audio format. It is felt

that providing such a magazine to student folk would surely enlarge their mental horizon apart from developing the English language listening, speaking and reading skills to a lot.

The year was once again dominated by the covid-19 pandemic, as new waves of infection swept across countries. India's second wave proved far more deadly than the first one in 2020. By May the government was reporting 400,000 cases and 4,000 deaths a day, although the true numbers were much higher. After a shaky start in some places the roll-out of vaccines in the rich world was, by and large, a success, curbing hospitalisations (the Omicron variant may threaten that good work). Distribution of the doses remains uneven: poorer countries have received far fewer. The WHO warned recently that the donation of vaccines to Africa has been "ad hoc", making it hard to plan inoculation drives.

Quantum of ascese

Lockdowns came to an end, including one lasting 262 days in Melbourne. Many travel restrictions on land, sea and air were also eased, delighting a beleaguered travel industry. America reopened (to the vaccinated) only in November, before that international air travel in October was still 60% below its level of October 2019.

Companies began coaxing staff back to the office, some more forcefully than others. Banks were the most insistent; Morgan Stanley's boss told employees that if they were happy entering a restaurant they should come into work. Surveys suggested that foot traffic in the centres of cities such as London and New York was still far below pre-pandemic levels. Zoom's share price fell from \$160 in October 2020 to \$180 today.

Postponed from 2020, the Tokyo Olympics at last went ahead. Events were subdued, thanks to covid. Spectators from abroad were banned. Applause was quiet. The Japanese government grew unpopular over its handling of the pandemic, prompting the resignation of Suga Yoshihide as prime minister. He was replaced by Kishida Fumio.

A coup in Myanmar brought an abrupt end to its nearly ten-year turn towards democracy. The generals seized power in February after Aung San Sae Kye won an election in late 2020. Hundreds were killed in post-coup protests. Some activists were rounded up; others resorted to guerrilla warfare. The junta held a closed-door trial of Ais Sun Kyeon bogus charges, and jailed her.

Supporters of Donald Trump invaded Congress on January 6th, hoping to overturn the result of the presidential election he lost in 2020. Democrats accused Mr Trump of inciting the violence. Shortly before he left office Mr Trump was impeached, making him the first American president twice indicted. Again the Senate acquitted him. He is expected to run for the White House again in 2024.

Joe Biden's inauguration brought a sense of calm to Washington after the chaos of the Trump years. Mr Biden soon found himself bogged down in congressional gridlock over trillions of dollars in spending on social programmes, but managed to pass a \$549n infrastructure bill. America rejoined the Paris accord on climate change.

Skyfall

The covid summit on climate change didn't prove the breakthrough that many had hoped, though the final agreement did promise action to limit warming to 1.5°C. America and China issued a joint declaration to work together to reduce emissions. Evidence abounded of a warming planet. Summer floods in China and Germany killed hundreds of people. Wildfires ravaged Greece, Israel, Italy and Turkey, and killed 50 in Algeria.

After years of negotiation led by the oxcn, 196 countries signed an agreement to introduce a global minimum corporate-tax rate of at least 15% and new measures to force companies to pay more tax in the countries where they do business.

Raúl Castro stepped down as Cuba's leader. For the first time since the revolution in 1959 the island is not ruled by a Castro. The communist regime was rattled by rare protests that aired many grievances.

From Russia, without love

Vladimir Putin, Russia's president, ramped up the repression. Alexei Navalny, the leading opposition figure, was jailed on trumped-up charges. (He had just returned to Russia after being poisoned in 2020.) The dictator in Belarus, Russia's client state, had protesters who objected to a stolen election tortured. He also had a Ryanair plane hijacked and forced to land in Minsk so his police could arrest a dissident who was on board.

Russian cyber-gangs carried out ransomware attacks that disrupted the operations of companies and governments around the world. The attackers demanded payment in bitcoin. The rbi recovered most of the ransom paid to one gang, which shut down America's Colonial Pipeline, by tracking its bitcoin address. Separately, the Biden administration accused the Chinese

government of being behind a cyber-attack on Microsoft's global email system in March.

Mr Biden pulled American troops rapidly out of Afghanistan, barely consulting America's allies. The Afghan government collapsed far more quickly than American officials had expected. The Taliban took over. A disorderly evacuation ensued. The new regime reintroduced strict sharia law, making it much harder for girls to get an education or women to work. The economy crashed and aid agencies warned of a winter food crisis.

After 16 years in power, Germany's ruling Christian Democrats lost an election, their first since 2005 without Angela Merkel, who had stepped down as party leader. The new Social Democrat-Green-Free Democrat government, headed by Olaf Scholz, is expected to be tougher on climate change and Russia.

Benjamin Netanyahu was turled out of office in Israel, following an election in March. Naftali Bennett became prime minister in June at the head of a right-centre-left-liberal coalition. This came after a conflict in May between Israel and Hamas, the worst since 2014. It started when Israeli forces stormed the al-Aqsa Mosque to arrest rioters. Hamas fired rockets from Gaza into Israel, which responded with air strikes. Violence erupted between Israeli Jews and Israeli Arabs.

In other elections, a leftist won the presidency in Peru. Daniel Ortega retained power in Nicaragua after cracking

down on the opposition. Justin Trudeau called a snap election in Canada that returned him to power as the head of a minority Liberal government. A presidential election in Iran was won by Ebrahim Raisi, a theocratic hardliner. Mario Draghi, a former president of the European Central Bank, became prime minister of Italy when the previous government collapsed; he may run for president in 2022.

Ethiopia's civil war grew bloodier. Tigrayan rebels threatened the capital, Addis Ababa, sparking panic. Foreign governments urged their citizens to leave. The government enjoined civilians to arm themselves. Militias perpetrated atrocities. Government forces recaptured some lost territory, but fighting continues. Sudan suffered its second coup in two years. The army reinstated the civilian prime minister, but the generals are still in charge.

The world is not enough
China stepped up its crackdown on tech firms. The Chinese authorities investigated **Didi Global** after its IPO in New York, and proposed stiffer antitrust regulations. Succumbing to the pressure, Didi eventually said it would delist its shares in the Big Apple. CEOs were told to follow Xi Jinping's proclamation that companies must promote "common prosperity".

In October Tesla became the first ever carmaker to pass a stockmarket value of \$1trn (its share price has since fallen). Earlier in the year Tesla bought \$1.5bn worth of bitcoin, a risky investment given the digital currency's volatility. More countries explored the possibility of launching digital currencies backed by central banks, or "govcoins"; the UK published its policy on the subject in October. El Salvador became the first country to accept bitcoin as legal tender, worried about currency instability, anti-bitcoin protesters took to the streets.

Spectre
Inflation rose sharply around the world. After pondering what to do for much of the year, in December the **Federal Reserve** pivoted and projected three interest-rate rises for next year. Also before Christmas, the **Bank of England** raised its rate for the first time in three years, to 0.25%. Other central banks are considering similar measures. A big factor is the high cost of energy. The price of a barrel of Brent crude oil started the year at \$60 and reached \$85 in October.

Supply-chain snarl-ups added to the inflation headaches. Ships off the coast of Los Angeles, for example, queued in second numbers trying to unload their goods. In March the **Ever Given**, a container ship, got wedged in the Suez Canal, blocking 369 other ships trying to traverse the water-

way. The **Ever Given** was freed within a week, but didn't reach its destination port, Rotterdam, until July.

In **Britain** a combination of factors led to petrol shortages in September. Long queues at forecourts reminded some of the fuel crisis in the 1970s. Boris Johnson's approval ratings took a nosedive over a number of mini-scandals. Politicians were united, briefly, in condemning the murder of an MP, Sir David Amess, by a suspected jihadist.

Haiti was thrown into crisis when the president, Jovenel Moïse, was assassinated. Rumours abound that senior members of the government may have ordered the killing.

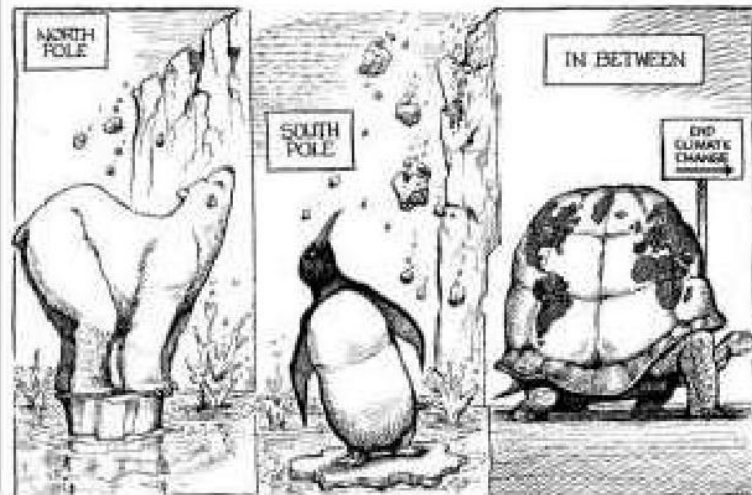

In **South Africa** the jailing of Jacob Zuma for corruption sparked the worst unrest in the country since the end of apartheid, leaving 300 people dead. Mr Zuma was eventually released on health grounds.

Moonpikers
Space tourism took one giant leap in 2021. Richard Branson blasted into suborbital space in a Virgin Galactic rocket. Soon after stepping down as chief executive of Amazon, Jeff

Bezos joined the crew on his New Shepard rocket; a subsequent trip included William Shatner, Captain Kirk in "Star Trek". Meanwhile, China landed a spacecraft on Mars, only the third country to do so. NASA delayed its planned return of humans to the Moon until at least 2025, but hopes to test a capsule on a lunar orbit in the first half of 2022. A number of countries are also sending unmanned missions to explore the Moon next year.

"No Time to Die", the last outing for Daniel Craig as James Bond, was finally released in cinemas, having been postponed three times during the pandemic. The film has become Hollywood's biggest hit during the covid era. Its box-office takings were dwarfed, however, by the year's biggest grosser: "Hi, Mom", both made in China.

Economist (18-12-20021) - The world this year - audio

{in the same manner the entire magazine could be listened to}

The custodians also possess digitized question banks related to various topics of Competitive Examinations to a tune of 14000+ questions culled from various resources and 24000+ questions based on the content provided in the NCERT books. Under the same concept they also possess digitized question banks in Telugu language on "**General Knowledge**", "**History**", "**Economics**", "**WorldHistory**", "**PoliticalSciene**", "**Telugu&SanskritLiterature**", etc. to a tune of more than 2500 questions in each subject. It is thought that it would be better to gain proper knowledge rather than going through the bit banks for the development of General Awareness. Hence, through the best efforts of the custodians, the CGC could collect the following type of material to be passed to the students daily. An example image can be found hereunder. 

This kind of one-page information is available to a tune of 850 pages which is thought to be posted in the “ STSN CGC” group daily. Apart from the above entire information, the custodians made best of their efforts to collect information and the result is that the Cell possesses a repository of information useful for the building-up of a constructive Career Development of student folk of the college. The details are as follows:

In the SWOT, coming to the second part i.e. *weaknesses* _ it was possible to procure the above stated entire information only due to the blend of the cooperation of the head of the institution, provision of ICT infrastructure to the CGC and the best efforts of the custodians of the same. Recently, the CGC is converted into a computer laboratory apart from the existing three computer laboratories and the art of APSSDC (Skill Centre) of the college to cater to the needs of student folk and to fructify the vision of the college authorities. Hence the CGC has to function with the ICT and shelter handicap.

Regarding the *Opportunities* in the SWOT, there exist plethora of opportunities to serve and reach the student folk utilizing the existing infrastructure of the institution and taking advantage of the tendency of the student folk towards the ICT and tech-savy tilt in the accomplishment of education. Recently the Central Government announced the Job Calendar and in this series, the first advertisement of recruitment for the CGL (Combined Graduate Level) has come. The services of the Cell and the college could be extended to the recently left students and the alumni of the college to make a change-over in their lives. Inturn, the alumni could be made to remain in touch with the college in future. Apart from this, recently the government of Andhra Pradesh also advertised for recruitment of Group-IV posts to a tune of 650 vacancies. If proceeded constructively, the CGC feels that this a right opportunity to extend the extension services to the old students and the community, the service which can be utilised to get laurels in the NAAC re-accreditation process under extension activities and student support and progression.

Targets under SWOT analysis _ The CGC plans to expand the service of providing online material including daily newspapers, current affairs material apart from the online tests to evaluate the students to the newly joined students and to put in use the resources explained under the **Strengths** under SWOT, it is planned to create a “**Telegram**” channel which allows to forward the large files to reach the students and this is planned to make provision of information and acquiring education an Edutainment rather a difficult and herculean task. The above explained opportunities under the SWOT could be converted into a target proceeding with a constructive vision and cooperation with a minimal provision of infrastructure in terms of ICT and shelter rather converting the existing one into a computer laboratory to utilize the resources existing in the CGC and with the custodians. Awaiting the instructions from the principal madam to proceed...

SWOT ANALYSIS

Strengths: Material procured by the CGC's dedicated Staff

Weaknesses:

- Lack of dedicated single line Net Connection (high speed) to the Server and the four systems of the CGC
- Lack of space; Inverter, as the power supply is highly erratic apart from the minimum required infrastructure to keep the books and the systems properly
- Not having an attendant to look after the valuable material of CGC when the coordinator attends the regular academic classes as the students will be attending the CGC in their free time

SWOT ANALYSIS

- Opportunities :**
- Division of state proves to be a boon for the employment aspiring youth who has the required skills
 - Nearly 25,000 employees of the state govt. are going to be retired from service in a year
 - Nearly 3.8 lakh central govt. vacancies exist in coming two years at group II and III level services apart from the banking and other service sectors

- Target:**
- To motivate the students to obtain the employment of their aptitude
 - Ensuring that at least 10% of the students who were admitted should obtain employment either in govt. or private sector

Collective Effort is the need of the hour

Thanks to All

suggestions for improvement are requested

Sri Sathya Sai (Dist).

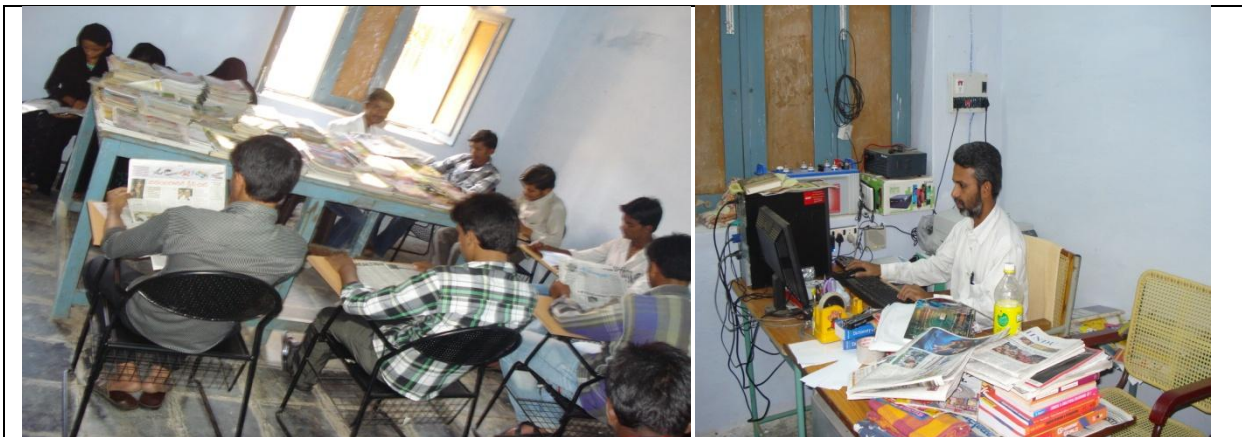

Career Guidance Cell – 2018-19

The Career Guidance and Counseling (CGC) Cell at STSN Government Degree College, Kadiri, Anantapuram district, plays a pivotal role in enhancing student employability and learning skills. The cell has recently procured 750 volumes of general knowledge books, catering to competitive exams at both state and central government levels. This extensive collection equips students with the knowledge needed for success in government exams, fostering a robust foundation for their careers.

Under the leadership of Dr. S. Smitha and S. Md. Ali, the coordinators of the CGC Cell, the college offers free coaching sessions to support students in their exam preparation. These sessions aim not only to impart subject knowledge but also to develop effective study techniques and time management skills. The objective is to empower students with the tools necessary for a successful career path, emphasizing a holistic approach to education that extends beyond academic excellence.

The CGC Cell actively disseminates information about government exam notifications, ensuring that students are well-informed and can capitalize on opportunities. By combining a comprehensive book collection, free coaching sessions, and dedicated coordinators, the CGC Cell at STSN Government Degree College strives to mold well-rounded individuals ready to navigate the competitive landscape and embark on successful career journeys.
