* Arrange the lessons or topics in a logical order, ensuring that they build upon one another

* If applicable, show how the curriculum relates to real-world scenarios to make it more practical and relevant

* Establish clear criteria for assessing learner performance, including grading rubrics if applicable

* Determine the teaching methods you'll use, such as lectures, discussions, hands-on activities, or group projects

It may be helpful to create a persona of your average student noting their key demographic learning goals and learning styles

The curriculum development process systematically organizes.

Training centre for conduct of sericulture activities may enhance the potentiality of the subject in creating self employability

The curriculum is very good because to develop curriculum the society will improve

We are all expecting more than particular knowledge in subjects and college development program

Not has much to say

Need to add syllabus relevant to Needs of the society

May be Added Modern Topics

Yes very well development

Overall it is good

Higher authorities take action and Academic year will set , june-April

Teaching technologies are well.

No

Good,improve lct based classes

Conduct more lct classes

Good

Improve more ICT class rooms

Need to improve according to industrial needs

Useful for the student

New syllabus may be added

If a paper on "Communications Skills" or "English for Competitive Examinations" is added in the last semesters of the study of UG students, it would cast a beneficial effect in their future course of life in respect with their life-choices in the smart and competitive world.
